

MF SERIES

Gun with Internal Integrated Filter

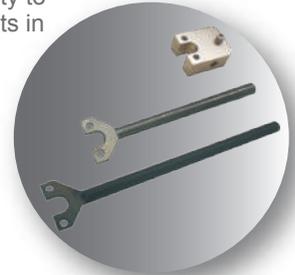

The Valco Melton MF Integrated Filter Gun Series is composed of standardized automatic hot melt applicators specially fitted for gluing jobs to close without air. Valco Melton developed the innovative MF Gun Series in response to the demand for a durable, high quality design that ensures long production life and minimizes maintenance costs. The MF Series brings clean adhesive application in a reduced space.

- 100% compatibility with other market standards
- Maximum durability for decreased maintenance
- Versatile design for flexible configurations

Internal filter provides continuous adhesive filtration

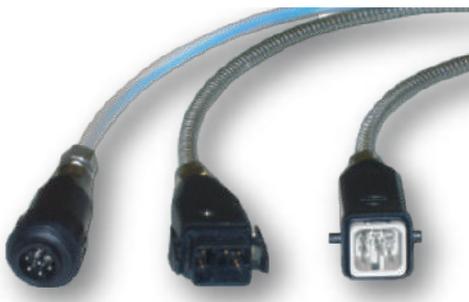

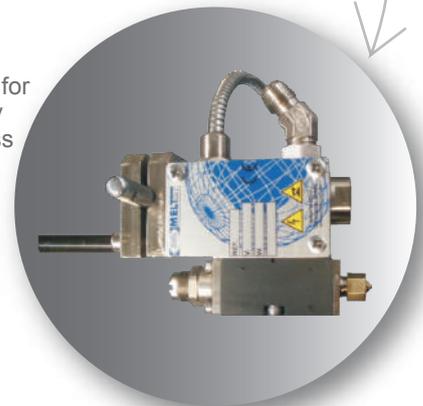

Total adaptability to existing brackets in the market

Multi module and single module options

In-line filter ideally located for quick and easy cleaning access

100% compatible connectors

Valco Melton's MF Series Applications:

MF CVO-CVR

MF Multibead

MF Standard Bead

MF Coating

Valco Melton's range of application products offer a complete selection of hot melt components and support:

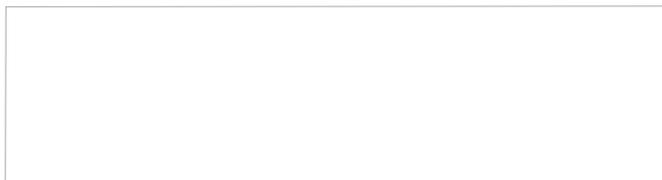

- RTD hot melt hoses
- Manual and automatic dispensing valves
- Nozzle and applicator styles
- Mounting bracket packages
- Solid-state pattern control systems
- In-line filters
- Replacement parts for competitive systems
- High-performance hot melt adhesives

ISO 9001
